Invoice

Mizzey Operations Platform. The invoice for each of the seven payments under the engagement, with the full payment schedule and the condition that has to be met before each one is sent.

A template, filled once per payment. It carries no signature: an invoice does not need one.

CONTRACT REFERENCE

Services Agreement MS-AGR-2026-010, Statement
of Work MS-SOW-2026-009

1. How to use this template

This is the invoice for the Mizzey Operations Platform engagement. **One invoice per payment**, seven in total: six stage payments and one for the interface design.

Fill the fields, save it under the invoice number, and send it as a PDF. Section 8 lists every payment with its amount, so the figure never has to be worked out from scratch.

The fields on this page are fillable. Open the PDF in any reader, click a field and type. Nothing else on the page can be edited by accident.

2. Invoice details

Invoice number	
Invoice date	
Payment due by	

Invoice numbers run in sequence and are never reused. A simple scheme that works: **MZ-01** through **MZ-07**, one per payment in section 8.

3. From

Name	Mustafa Mohamed Shaaban
Capacity	Individual professional
Address	
Email	
Telephone	

4. To

Client	Mizzey
Client legal name	
Client address	
Client contact	
Client email	

5. What this invoice is for

Payment for	
Reference	
Amount due, EGP	
Amount in words	

This invoice is issued under the Services Agreement MS-AGR-2026-010 and the Statement of Work MS-SOW-2026-009, both dated 5 September 2026.

NOTE

No tax is added and no tax is deducted.

The fee agreed in MS-SOW-2026-009 section 3 is the total. No value added tax and no other tax applies to it. The amount shown above is the amount payable in full.

6. How to pay

Bank	
Account name	
Account number	
IBAN	
Wallet or transfer number	
Reference to quote on the transfer	

Payment is in Egyptian pounds. Each party bears the charges levied by its own bank.

7. Terms

- Payable within **7 working days** of the invoice date, per MS-SOW-2026-009 section 10
- Payment in Egyptian pounds, by bank transfer or an agreed local transfer method
- If this invoice is unpaid for more than **14 working days**, work may be suspended after written notice, and the timeline extends by the period of suspension, per MS-AGR-2026-010 section 16
- Please quote the invoice number on the transfer, so the payment can be matched

8. The seven payments

The complete schedule, so the right figure is used every time. This table is a reference and is not filled in.

#	PAYMENT FOR	WHEN IT IS INVOICED	AMOUNT
1	Stage 1. Start and specification	On signature of the Agreement	58,000 EGP
2	Interface design	On written approval of the design, expected week 4	20,000 EGP
3	Stage 2. Foundation and products	On acceptance of stage 2, week 5	58,000 EGP
4	Stage 3. Shop front complete	On acceptance of stage 3, week 8	58,000 EGP
5	Stage 4. Operations system	On acceptance of stage 4, week 11	43,500 EGP
6	Stage 5. Migration and reports	On acceptance of stage 5, week 13	43,500 EGP
7	Stage 6. Live and handed over	On acceptance sign-off and go-live, week 14	29,000 EGP
Total			310,000 EGP

The order above is the order the invoices are issued in, not the order of the stage numbers. The interface design is invoiced second because it is approved in week 4, before stage 2 completes.

9. What has to be true before each invoice is sent

An invoice is only correct if the thing it bills for has actually happened. This is the check.

#	SEND ONLY WHEN
1	The Agreement and the Statement of Work are signed by both parties
2	The client has approved the interface design in writing
3	Stage 2 is accepted, or 5 working days have passed since it was submitted with no written response
4	Stage 3 is accepted, or the 5 working days have passed
5	Stage 4 is accepted, or the 5 working days have passed
6	Stage 5 is accepted, or the 5 working days have passed
7	Acceptance is signed under MS-UAT-2026-013 and the store is live

Acceptance by silence is real and it counts. MS-SOW-2026-009 section 4.1 says that if no written response arrives within 5 working days of a stage being submitted, the stage is treated as accepted and its payment falls due. Keep the email that submitted it: the date on that email is what starts the 5 days.

Issued by Mustafa Mohamed Shaaban. This template carries no signature. An invoice does not need one.
